

You may already be a member of the National AAP – Why join the Montana Chapter?

*We're a small Chapter but we have a big voice!
Highlights of what Montana AAP offers:*

Advocacy

- Opportunities to participate in advocacy activities at a State and local level.
- A forum for you to be involved in the State legislative arena, and to positively impact the welfare of children and the quality of pediatric practice in Montana.
- Collaborate with other professionals and organizations working toward improving children's health and well being.
- A network for promoting the interests of Montana Pediatricians in the National AAP

Leadership

- Join Chapter Committees working on issues that interest you, and are important to your patients and communities.
- Opportunities to represent the Montana Chapter at National Meetings and on National Committees.

Networking

- Network with other Pediatricians and providers with similar interests and diverse experience.
- Join colleagues helping to improve Montana Chapter participation in National AAP affairs.

Education

- Receive weekly email updates with a variety of resources, news, and learning opportunities.
- Receive discounted registration for the Annual Montana Pediatric CME Conference, with a variety of high-quality programs.

Our successes – What has Montana AAP done lately?

- Received grants to help improve adolescent vaccination rates, support suicide prevention efforts, and build depression screening programs
- Awarded "Small AAP Chapter of the Year" in 2014, and used this award to provide 4 Mini grants to members for projects benefiting their patients and communities
- Collaborated with other statewide groups to advocate for changes in public policy to enhance child health and well being during Montana's biennial legislative session
- Worked with local and regional agencies to provide gun trigger locks for distribution in Pediatrician offices
- Supported Chapter Members in applying for Community Access to Child Health (CATCH) grants
- Members elected to State Advisory Boards including Newborn Screening, Universal Hearing Screening, Children's Special Health Services, the Maternal Mortality Review Team, the Governor's Protect MT Kids Commission, and the Board of Medical Examiners.
